

Provide Insights to Chief of Operations in Transportation Domain

Domain: Transportation & Mobility

Function: Operations

Goodcabs, a cab service company established two years ago, has gained a strong foothold in the Indian market by focusing on tier-2 cities. Unlike other cab service providers, Goodcabs is committed to supporting local drivers, helping them make a sustainable living in their hometowns while ensuring excellent service to passengers. With operations in ten tier-2 cities across India, Goodcabs has set ambitious performance targets for 2024 to drive growth and improve passenger satisfaction.

As part of this initiative, the Goodcabs management team aims to assess the company's performance across key metrics, including trip volume, passenger satisfaction, repeat passenger rate, trip distribution, and the balance between new and repeat passengers.

However, the Chief of Operations, Bruce Haryali, wanted this immediately but the analytics manager Tony is engaged on another critical project. Tony decided to give this work to Peter

Pandey who is the curious data analyst of Goodcabs. Since these insights will be directly reported to the Chief of Operations, Tony also provided some notes to Peter to support his work.

Task:

Imagine yourself as Peter Pandey and perform the following task to keep up the trust with your manager Tony Sharma.

1. Go through the metadata and analyse the datasets thoroughly. This is the most fundamental step.
2. Begin your analysis by referring to the 'SQL_analysis_business_questions.pdf'. You can use any tool of your choice (Python, SQL, PowerBI, Tableau, Excel) to analyse and answer these questions. More instructions are provided in this document.
3. Design a dashboard with your metrics and analysis. The dashboard should be self-explanatory and easy to understand.
4. You need to present this to the Chief of Operations - hence you need to create a convincing presentation with actionable insights.
5. You can add more research questions and answer them in your presentation that

suits your recommendations.

6. Be creative with your presentation, audio/video presentation will have more weightage.

Note:

1. We recommend you create a video presentation of ideally 15 minutes or less for the business stakeholders. Additionally, make a LinkedIn post that includes relevant links, your video presentation, and a reflection on your experience while working on this challenge.

2. You can check out this example presentation to gain some inspiration: [Sample Presentation Link](#)

3. Please see this detailed evaluation criteria which is provided in the document “evaluation criteria”.

4. After completing your LinkedIn post, please submit the link in the input box provided.
